System pipe

Mapress Stainless Steel 1.4301 system pipe

Application Purpose

- For heating and industrial applications
- Not suitable for drinking water

Characteristics

- Corrosion-resistant
- Noncombustible, combustible substance class A1 in acc. with DIN 4102-1

Product Details

Product material	CrNi steel 1.4301 (DIN EN 10088)
Thermal conductivity of pipe	15 W/(m·K)
Thermal expansion	0.016 mm/(m·K)
Surface roughness	1.5 µm

Scope Of Delivery

- Delivery in sections
- Small bundle
